Mercy Health Arena

INTRODUCTION TO MUSKEGON FIGURE SKATING ACADEMY

The Muskegon Area has a long history of producing world-class athletes. Our local athletic programs have helped developed scholar-athletes that have competed at the highest collegiate levels, and well as professional athletes in nearly every major sport. For decades, our community has focused its attention on sports like football and basketball – producing several Mr. Basketball and Mr. Football winners, hundreds of All-State selections, and many Division-1 and Division-2 athletic-based scholarships. Beginning in 2020, Muskegon’s efforts to build superior, elite athletes is taking another great step forward to focus on building world-class figure skaters.

The 2020-21 school year will be the inaugural year of the Muskegon Figure Skating Academy. The partnership between Orchard View Schools and Mercy Health Arena will bring world class coaches, facilities, and educators together to build elite skaters, high-quality students, and strong leaders.

FACILITIES

Student Players will spend more than 12 hours each week in skate and dance instruction. The Mercy Health Arena features one USA-Hockey regulation ice sheet and a 10,000 square foot off ice facility with dance floor, weight training, and turf training. When students are not practicing or working out, they will have access to teachers and classroom space. This space is provided through Orchard View Schools’ adjacent Alternative Education Classroom at Muskegon Community College’s Downtown Campus. The combination virtual and classroom learning experience will be valuable to students focused on high-level skating and college attendance, as the program has been designed to meet the admittance requirements of traditional Division 1 schools.
